THURSDAY SPECIAL EVENTS

2:00 PM

ROHRER AESTHETICS · WORKSHOP · AMERICANA FOYER

Establishing A Successful Energy Based Med-Spa: The Non-Surgical Technology Side Of The Equation

Speaker: Dr. Carson C. Bauder, M.D., Aesthetic & Anti-Aging Medicine Specialist

The Dilemma for the 21st Century Medspa: How to be all things to all patients and still maintain a thriving business. A successful medspa must be committed to offering a wide array of treatment offerings to their patients, while simultaneously ensuring a fast and easy way to increase revenue. In order to keep pace with the latest trends, technology and competition, a viable medspa must offer multiple devices to meet their patient's needs. The average cost for each new laser, RF microneedling system or body contouring system is approximately \$100,000. So, how does a medspa acquire the needed technology without breaking the bank? Dr. Carson Baulder will discuss how he is able to offer a plethora of the most popular aesthetic procedures and balance the costs associated with each energy-based device that is required to build an elite, profitable med spa.

3:15 PM

SOFWAVE · LIVE DEMO WORKSHOP · AMERICANA FOYER

Sofwave Synchronous Ultrasound Parallel Beam Technology, SUPERB, A Game Changer

Speakers: Dr. Gregory Mueller, Dr. Jason Pozner, Dr. Barry DiBernardo

Sofwave Synchronous Ultrasound Parallel Beam Technology, SUPERB, answers a growing demand for non-invasive treatments that deliverable noticeable wrinkle reduction with its 7 cooled transducers, directly coupled to the epidermis, creating a unique 3d array of volumetric, cylindrical-shaped thermal zones that deliver continuous parallel energy simultaneously to coagulate more tissue areas more quickly at a depth of 1.5mm mid-dermis to improve skin effect in half the treatment time of other technologies, no matter the skin type.

4:45 PM

DOMINION AESTHETICS · LIVE DEMO WORKSHOP · AMERICANA FOYER

EON: Robotic Innovation Advancing the Body Contouring Industry

Speakers: Dr. Chad Deal, Christian Bloomgren

EON is the first robotic, touchless, 1064nm body contouring device disrupting the non-invasive lipolysis industry. This workshop will include a presentation by EON President Christian Bloomgren and Dr. Chad Deal with a live demonstration of the device in action. The discussion will consist of: EON's touchless technology, which creates efficient, consistent laser energy distribution with higher efficacy. The proprietary jet-impingement cooling and real-time skin monitoring system that allows EON to heat fatty tissue up to 51°C. And finally, an overview of the 42 safety sensors configured into EON's autonomous, robotic system that removes human error and creates a safer experience for the practitioner and patient.

5:30 PM

X-MEDICA · LIVE DEMO SESSION · AMERICANA 1/2

Cellulite Treatment

Speakers: Dr. Bruce Katz, Dr. Juliya Fisher

We will be demonstrating new treatment options for Cellulite. Educational Objectives: Describe proper patient selection when treating cellulite, Identify dilution strategies when using CCH-aes for treating cellulite, Describe appropriate injection techniques when using CCH-aes for treating cellulite in the buttocks and thighs; Discuss management of potential patient side effects of CCH-aes

6:30 PM

7:30 PM · APYX MEDICAL DINNER SYMPOSIUM · AMERICANA 1/2

"Thank you for hosting an amazing aesthetic conference -- It was the most informative and well-run conference that I have attended. As a Dermatologist/Mohs surgeon, I really appreciated learning from colleagues in other specialties, and the in-depth evaluations of multiple devices and techniques was extremely helpful in assessing which devices to add to our practice."

*Dermatologist
Naples, FL*

NASAL TIP TIPS

MODERATOR: IVAN WAYNE, MD

Sunday, November 7

THURSDAY SPECIAL EVENTS

PM

2:00 PM

ROHRER AESTHETICS · WORKSHOP · AMERICANA FOYER

Establishing A Successful Energy Based Med-Spa: The Non-Surgical Technology Side Of The Equation

Speaker: Dr. Carson C. Bauder, M.D., Aesthetic & Anti-Aging Medicine Specialist

The Dilemma for the 21st Century Medspa: How to be all things to all patients and still maintain a thriving business. A successful medspa must be committed to offering a wide array of treatment offerings to their patients, while simultaneously ensuring a fast and easy way to increase revenue. In order to keep pace with the latest trends, technology and competition, a viable medspa must offer multiple devices to meet their patient's needs. The average cost for each new laser, RF microneedling system or body contouring system is approximately \$100,000. So, how does a medspa acquire the needed technology without breaking the bank? Dr. Carson Baulder will discuss how he is able to offer a plethora of the most popular aesthetic procedures and balance the costs associated with each energy-based device that is required to build an elite, profitable med spa.

3:15 PM

SOFWAVE · LIVE DEMO WORKSHOP · AMERICANA FOYER

Sofwave Synchronous Ultrasound Parallel Beam Technology, SUPERB, A Game Changer

Speakers: Dr. Gregory Mueller, Dr. Jason Pozner, Dr. Barry DiBernardo

Sofwave Synchronous Ultrasound Parallel Beam Technology, SUPERB, answers a growing demand for non-invasive treatments that deliverable noticeable wrinkle reduction with its 7 cooled transducers, directly coupled to the epidermis, creating a unique 3d array of volumetric, cylindrical-shaped thermal zones that deliver continuous parallel energy simultaneously to coagulate more tissue areas more quickly at a depth of 1.5mm mid-dermis to improve skin effect in half the treatment time of other technologies, no matter the skin type.

4:45 PM

DOMINION AESTHETICS · LIVE DEMO WORKSHOP · AMERICANA FOYER

EON: Robotic Innovation Advancing the Body Contouring Industry

Speakers: Dr. Chad Deal, Christian Bloomgren

EON is the first robotic, touchless, 1064nm body contouring device disrupting the non-invasive lipolysis industry. This workshop will include a presentation by EON President Christian Bloomgren and Dr. Chad Deal with a live demonstration of the device in action. The discussion will consist of: EON's touchless technology, which creates efficient, consistent laser energy distribution with higher efficacy. The proprietary jet-impingement cooling and real-time skin monitoring system that allows EON to heat fatty tissue up to 51°C. And finally, an overview of the 42 safety sensors configured into EON's autonomous, robotic system that removes human error and creates a safer experience for the practitioner and patient.

5:30 PM

EXHIBITORS

Aerolase

Booth #111

Improve Skin Concerns in a Whole New Way. Advance good results to great results with a new, elite category of energy-based devices. Aerolase improves what's working for you, fixes what isn't, and even gives you the ability to address concerns you may not currently be treating. The outcome is a modern patient-provider experience that is more personalized and more enjoyable with incomparable results.

<http://aerolase.com>

AesthetiBot

Booth #106

Aestheti.Bot is the first and only chatbot designed specifically for the Medical Aesthetics Industry. It can answer patient questions instantaneously! It captures over 80% of first names, emails and/or phone numbers meaning automatic lead generation. All while being completely tailored to a physician's practice, location, specialties, and recommendations. Using Natural Language Processing and the power of Artificial Intelligence our chatbot answers routine and complex questions with the ease and efficiency of a human being, at a fraction of the cost. The calculation is easy: Save time and money while boosting engagement, simplifying lead generation, reducing burnout, and improving patient outcomes.

<http://www.aestheti.bot>

Aesthetic Management Partners, Inc

Booth #606

At AMP we believe that patients come first. Delivering on the experience and result for the patient is the key to building a thriving practice. We do that by getting the patient a phenomenal result, which in turn will get the physician an excellent financial result. Too many companies are focused on 'selling' a box simply to make a quota at the end of a quarter. An unethical salesperson can bankrupt a practice by 'selling' them instead of helping them grow. For this reason and many others, AMP will never be a publicly-traded company because real relationships are not built based on quarterly quotas or end of the month specials. If it is good for the patient, good for the physician, and good for AMP, then it is the right course of action. This is what guides us in everything we do.

<http://www.aestheticmanagementpartners.com>

Air-Tite Aesthetics

Booth #103

<https://www.air-titeaesthetics.com/>

Alastin Skincare, Inc.

Booth #403

ALASTIN Skincare® is the fastest-growing physician-dispensed skincare brand, with innovative, scientifically proven and clinically tested products. Founded in 2015, ALASTIN Skincare provides a comprehensive collection of cutting-edge products for optimal procedure results and daily skincare regimens. We strategically focus research and development on innovative products with the greatest potential impact for patients and providers. Our team's mission is to bring the highest levels of pharmaceutical science and innovation to the physician-dispensed skincare industry while creating a new category of products designed to be synergistic with procedures.

<https://www.alastin.com/>

Allergan

Booth #309

At Allergan Aesthetics, an AbbVie company, we develop, manufacture, and market a portfolio of leading aesthetics brands and products. Our aesthetics portfolio includes facial injectables, body contouring, plastics, skin care, and more. With our own research and development function focused on driving innovation in aesthetics, we're committed to providing the most comprehensive science-based product offering available. For more information, visit:

<http://www.allerganaesthetics.com>

<http://www.carestreamamerica.com/>

Cherry Technologies, Inc**Booth #511**

Cherry is a new age patient financing solution making it easier and more affordable for patients to access aesthetics! With Cherry, practices save 20-50% on their financing costs while treating more patients. Cherry boasts an 80% or higher approval rate. Cherry never hurts your patients' credit when they apply so you can offer financing to all patients, worry free. Applications take seconds, and can be completed in-office or online. Join the growing number of practices switching to Cherry and committing to the #AccessoAesthetics movement! Book a demo today at withcherry.com

<http://withcherry.com>**ClarityRx/Topix Pharma****Booth #122**

ClarityRx takes a direct approach to your skin, using pure pharmaceutical quality ingredients without unnecessary and harsh chemical additives. We believe beautiful skin means healthy skin. Combining our knowledge of skin with our passion for health, we made it our mission to create - plant-based, results-driven skincare with zero tradeoffs in terms of safety or efficacy. We unlock the performance of our natural actives by pairing them with conscious technology - and nothing more. No harmful or synthetic chemicals, extenders, fillers or bulk. No fragrance or artificial colors. We are committed to giving everyone clear, healthy, youthful skin - safely. We have proven it's possible to create real, visible improvement in wrinkles, acne, hyperpigmentation, rosacea and sagging without risk, damage or regrets. It's all done with sustainable products made in the USA without the use of harsh retinols, benzoyl peroxides, hydroquinone, and other harmful chemicals. We leave out extra packaging to reduce waste. Rather than using individual boxes, our products are shrink wrapped or sealed to keep the contents fresh and effective.

<http://www.clarityrx.com>**Crown Aesthetics****Booth #409**

Crown Aesthetics, the premier medical aesthetics company, is dedicated to helping leading aesthetic practices around the world grow their businesses. We do that by delivering dramatic results in rejuvenation and restoration. Our non-invasive innovations – SkinPen®, the first FDA-cleared microneedling device; the post-microneedling protocol SKINFUSE®; and the platelet-rich plasma (PRP) system ProGen Advantage – act as “gateway” products that draw new consumers to practices. Based in Dallas, Texas, Crown Aesthetics sets industry standards for efficacy, safety, and innovation. As a result, our customers consistently deliver the best aesthetic care in the business. For more information, please visit www.crownaesthetics.com.

<http://www.crownaesthetics.com>**DefenAge New Skin | PRO Exclusive****Booth #303**

Incredible Marketing**Booth #100 / #204**

Incredible Marketing, a Digital Agency built to be different. We are specialists in the professional industries including healthcare, dental, legal, and finance. Sam Peek started the company in 2008 in Orange County California, with the help of some of the best minds in the business and Internet Marketing industry. Incredible Marketing provides custom website development, regional, national and international search campaigns, social media marketing and a variety of mobile marketing options. Today we have clients in over 20 countries. Our services include: Content Marketing, SEO - Search Engine Marketing, Social Media Marketing, Custom Website Design and Development. We focus on the following industries: Medical, Dental, Addiction Treatment. We pride ourselves on setting the industry bar for marketing agencies. We have the largest library of information and educational materials for your industry. We don't need to sell ourselves - our work does that for us!

<https://www.incrediblemarketing.com>

Invotec International, Inc**Booth #304**

Invotec is introducing two NEW Product lines, CryoIQ for Aesthetic CryoSurgery and MyFiller Revitalize Hyaluronic Acid to use in conjunction with Micro-Needling procedures. CryoIQ is extremely practical in the aesthetic application and a standard in cosmetic dermatology. Used to remove or reduce the appearance of sun and age spots and more, CryoIQ is portable, compact, safe, and will treat skin lesions to a millimeter precision combing with significant benefits for the client and the practitioner. MyFiller Revitalize is a line of topical non-crosslinked hyaluronic acid to be used in conjunction with micro-needling. With six formulas available, the option to use alone, mix multiple formulas and add MyFiller Booster EGF to create a customized formulation for each client to obtain optimal results. Both product lines are designed to save time, money, and improve procedural results.

MyEllevate**Booth #138**

The MyEllevate® innovation is a minimally invasive facial rejuvenation solution that offers natural and long-lasting results. It can be used as a standalone procedure or combined with energy-based skin tightening technologies. The surgical suture system is intended for use in soft tissue approximation and elevation of the sub dermis and underlying muscle. It can be used in locations such as the brow, mid-face and in conjunction with a facelift. The MyEllevate® technique utilizes the ICLED® Suturod®, the first and only patented light-guided technology for facial cosmetic procedures, to accurately place sutures without incisions. It takes approximately one hour to perform with a one-time use disposable system. The MyEllevate® solution offers fast recovery and restores a youthful appearance.

<http://www.MyEllevate.com>

Nextech**Booth #102**

Nextech's Ophthalmology-specific EHR, IntelChartPRO, improves patient care, simplifies compliance and comes fully integrated with an intuitive, user-friendly Practice Management solution. Experience the freedom of adaptable templates and intuitive workflows that streamline operations, improve performance and take the grunt work out of compliance. Pre-encounter tools paired with Ophthalmology-specific, time-saving charting features create an optimized clinical workflow that allows providers to spend more time with patients. Tailored to the needs of Ophthalmology practices, boosting profitability and enhancing patient care, IntelChartPRO is the IRIS® Registry's #1 EHR Collaborator with the most registered practices. To learn more how Nextech helps Ophthalmologists succeed in today's fast-changing healthcare environment, visit www.nextech.com.

Be true to your CONTOUR

A NATURAL-LOOKING FILLER FOR **CHEEK ENHANCEMENT**

Restylane® CONTOUR is the only cheek filler with XpresHAN Technology™
to **restore your natural CONTOUR**, move with your expression, and refresh your look.^{1,2}

CONTOUR'ED results

BEFORE

AFTER | 2.9 mL

For adults over 21. Actual patient. Treated with 2.9 mL of Restylane CONTOUR in the cheeks. Two weeks after treatment. Individual results may vary.

Actual patient. Individual results may vary.

Important Safety Information

Indication: Restylane® Contour is indicated for cheek augmentation and correction of midface contour deficiencies in patients over the age of 21.

Restylane Contour should not be used by people with severe allergies, particularly to microorganisms known as gram-positive bacteria, or by people with serious allergies to drugs that have previously required in-hospital treatment. This product should not be used by people with bleeding disorders and should not be injected anywhere except just under the skin. Restylane Contour should not be used in people with a known allergy to lidocaine, or by women who are pregnant or breastfeeding.

The most common adverse events after initial treatment include bruising, redness, swelling, pain, tenderness, and itching at the injection site. Use at the site of skin sores, pimples, rashes, hives, cysts, or infection should be postponed until healing is complete. In these instances, product use could delay healing or make skin problems worse.

This product should not be injected into the blood vessels as it may cause vascular occlusion, infarction, or embolic phenomena. Use with caution in patients recently treated with anticoagulant or platelet inhibitors to avoid bleeding and bruising.

Restylane Contour is available only through a licensed practitioner. Complete Instructions for Use are available at www.RestylaneUSA.com.
